

Poisoned Planet!

Tests have shown that rain drops, human blood and even breast milk are now routinely contaminated with dangerous chemicals. Our world is polluted with pesticide and other poisonous residues. Fertility rates are falling whilst year-on-year rates for asthma and cancer rise inexorably. What can be done to stop this madness?

Public Meeting

St Faith's Church Hall, The Pallant, Havant

Monday 21st March at 7.30pm
