

Wallasey Amateur Photographic Society

Audio Visual Group

With the introduction of digital photography there has been a revolution in the development of Audio Visual (the combination of music/words with photographs).

With a whole range of software devoted to this topic it has never been easier to develop Audio Visual presentations.

Within the club we have an active and enthusiastic special interest group made up from those members who have experience or an interest in furthering this side of the photographic hobby.

If you have an interest in Audio Visual and want to learn more come along, develop new skills and meet people with a like interest.

In addition to attending our normal club meetings the Audio Visual Group also have there own meetings organised *at a different venue* covering a wide range of topics every 2 weeks on Thursday nights.

Their programme is constantly evolving to meet members needs and as such does not have a published Syllabus.

To participate you need to be a member of Wallasey APS.

To contact the group please email the clubs Secretary (via Contact Page) and we will forward it on to a member of the AUDIO VISUAL Group.
