## 4 sun 8 step Corrections

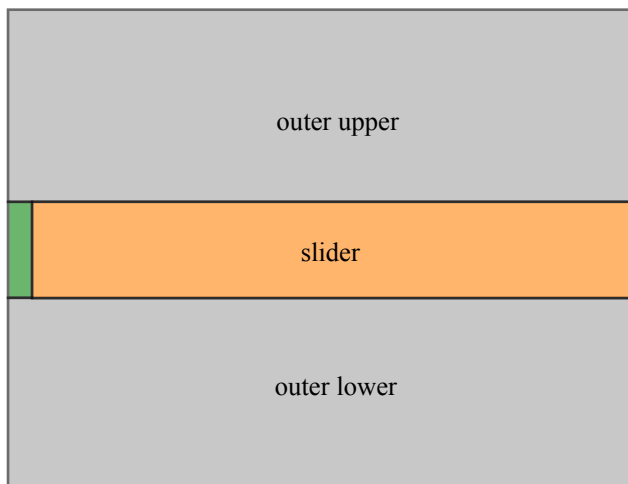

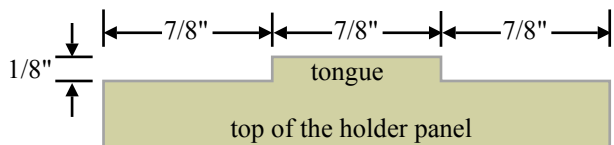

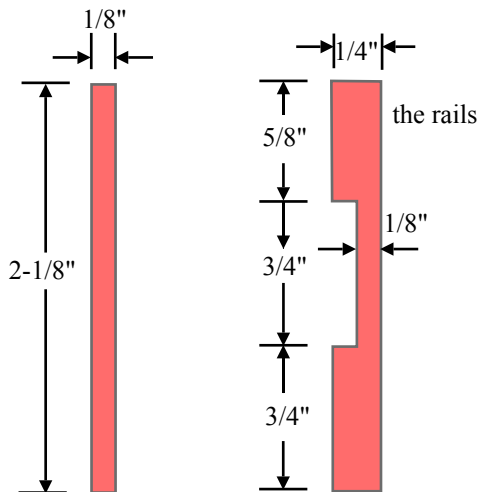

There were some mistakes in the original plans for the 4 sun 8 step box.  
The mistakes concern the Left and Right panels.

Also included here is the Opening Sequence, which was missing in the plans.

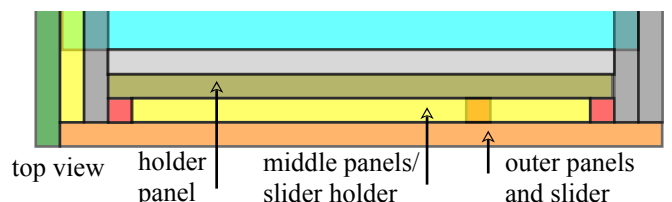

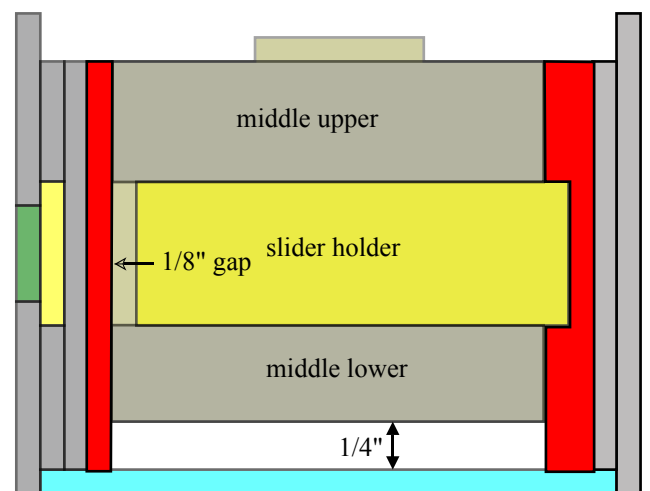

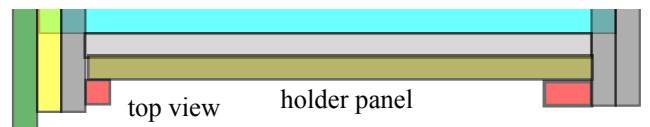

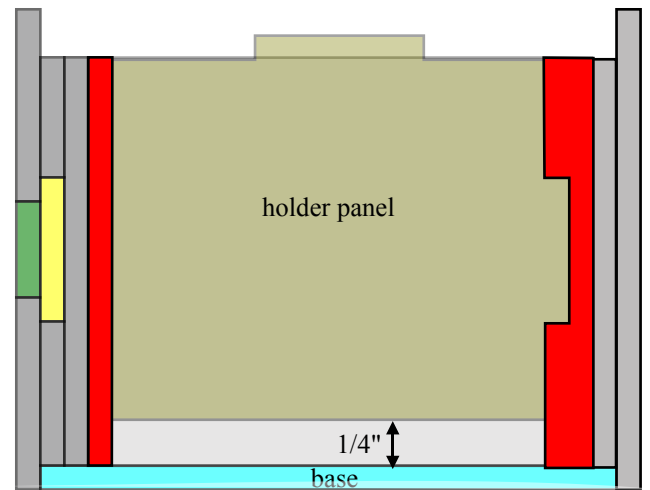

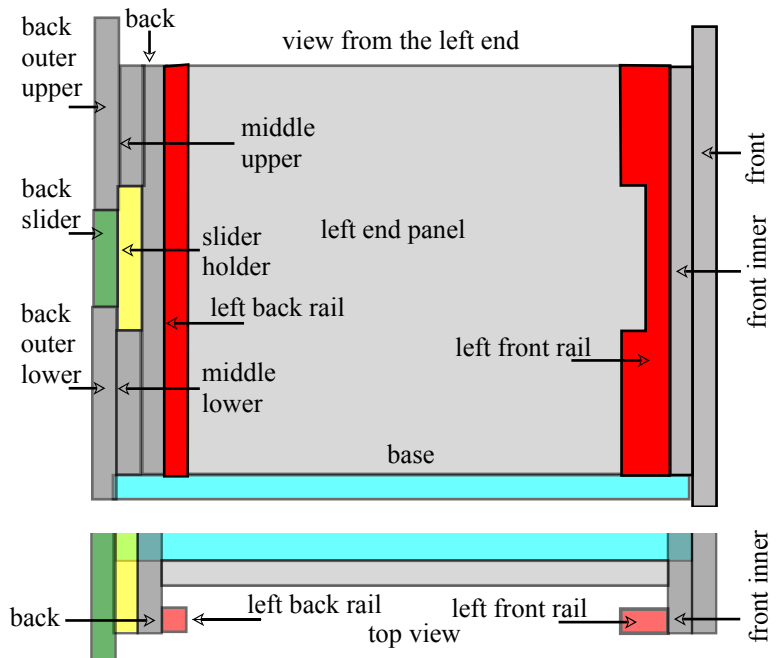

### The left end panels

The drawings for the Left end panel were incorrect. These are the amended drawings. Some parts are slightly different sizes to those given in the plans. The text describing how to assemble the parts remains the same.

- cut one at 2-5/8" x 2": holder panel
- cut one at 2-1/4" x 5/8": middle upper panel
- cut one at 2-1/4" x 3/4": slider holder
- cut one at 2-1/4" x 1/2": middle lower panel
- cut two at 3-1/4" x 1": outer panels
- cut one at 3-1/8" x 1/2": slider
- also cut two rails as shown.

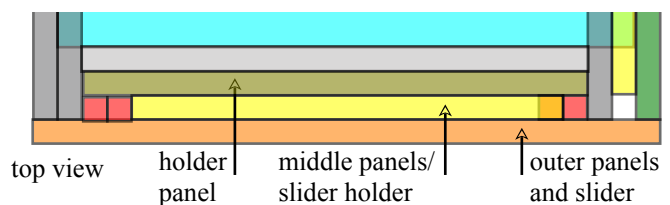

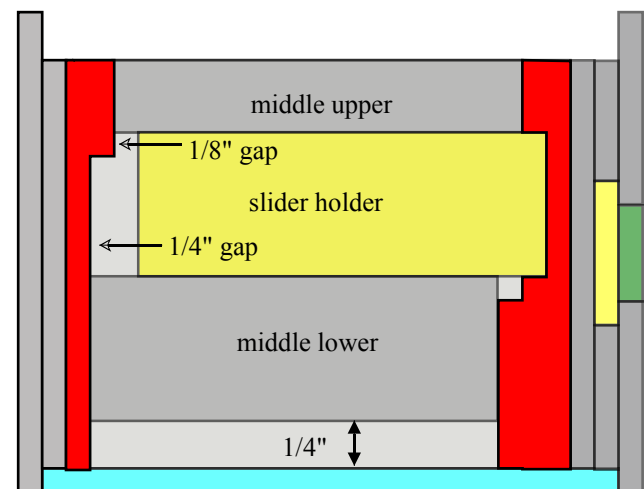

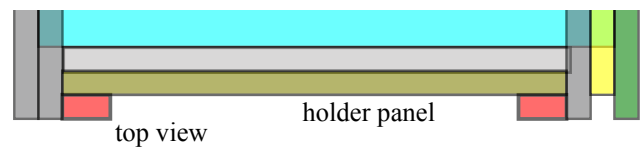

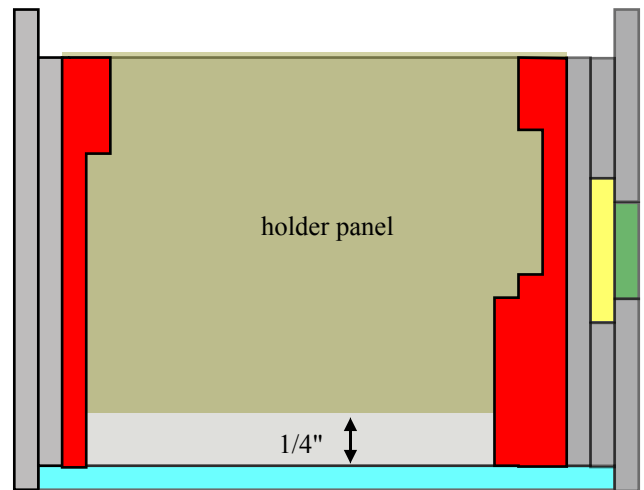

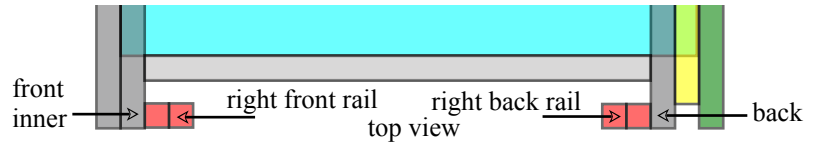

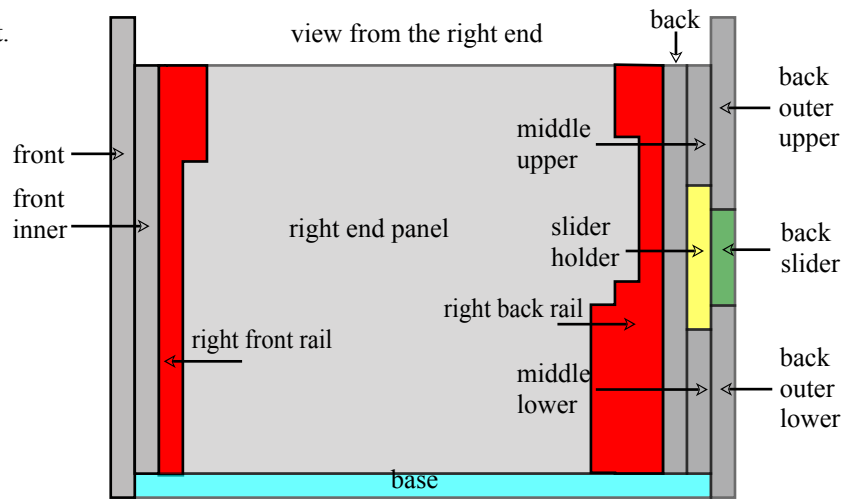

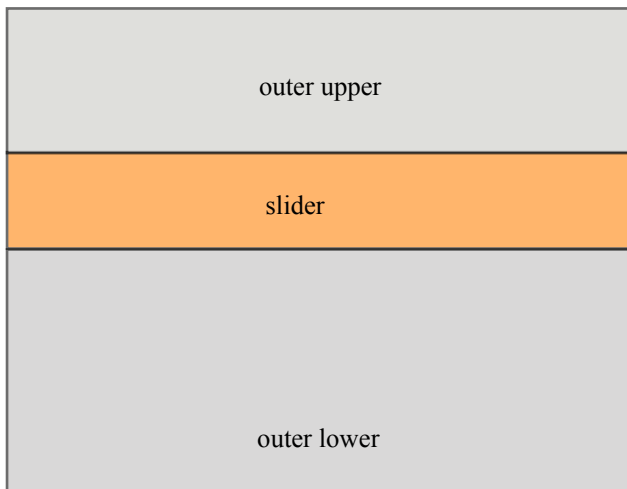

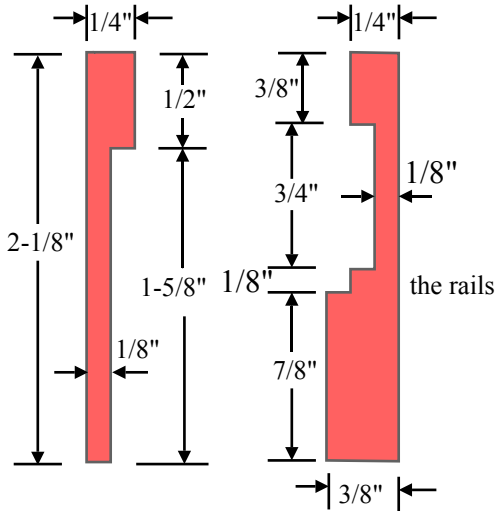

4 sun 8 step Corrections. April, 2010

The drawings for the Right panel were incorrect. These are the amended drawings. Some parts are slightly different sizes to those given in the plans. The text describing how to assemble the parts remains the same.

### The right end panels

- cut one at 2-5/8" x 1-7/8": holder panel
- cut one at 2-1/8" x 3/8": middle upper panel
- cut one at 2-1/8" x 3/4": slider holder
- cut one at 2-1/8" x 3/4": middle lower panel
- cut one at 3-1/4" x 3/4": outer upper panel
- cut one at 3-1/4" x 1/2": slider
- cut one at 3-1/4" x 1-1/4": outer lower panel
- also cut two rails as shown.

### Opening Sequence:

There is only one end slider that will move. Hold the box so that this slider is on the left, and will move away from you. The face nearest to you is the **back** of the box. Now follow these steps. Step 1 is already done.

1. Left slider away from you.
2. Left panel downwards.
3. Left slider away from you.
4. Left panel downwards.
5. Back slider towards the left.
6. Right slider towards you.
7. Right panel downwards.
8. Push the lid off.

This Opening Sequence was missing from the plans.
