ALTERNATIVES TO COLLEGE

Dylan/Simon tour still going well – but not over here!

A DYLAN EUROPEAN tour now seems to have been forgotten altogether. There hasn't been any mention of it at all for some time. A great shame, considering current reports concerning Dylan's performances that say he's playing better than ever and clearly enjoying being on the road.

Instead, everyone's now talking of the next US tour – starting in October – with Phil Lesh (Grateful Dead bassist) and Friends. A dozen or so dates have so far been proposed for this college campus tour starting at the University of Illinois, Champaign-Urbana, on October 27, and ending somewhere near New York City after November 15. Dylan's official website - bobdylan.com - says that it will be a while before dates are confirmed but they intend to make available a limited number of mail order tickets for these shows.

Let's hope that European dates follow!
