## 4<sup>wm</sup> Pearl<sup>TM</sup>

Sometimes the seed of a thought can grow into something very precious indeed!

We extend an invitation: For *you* to make a pearl. Not just by what you make of these words but what you do with them.

That's the idea! A very brief monthly email communication to sow the seed of a thought, an idea, a different view on things. Shared not for your agreement or disagreement, nor for your inspiration or motivation, but, rather, to stimulate: To invite a difference that you can make with it. The pearl, of course, is emergent. More to do with the oyster, in this case you, than any words on screen.

We are aware that it is but a mere drop in the ocean of communication received . . . nought but a small pebble in a very large pond . . . yet the ripple effects can be strong!

We'll be keeping an open (free) public section on '4wm Pearls' within our 4wm Community portal so feel free to come along and join us there. Why not bring along some colleagues or friends to share in the difference made? To repeat: The seed of a thought can grow into something very precious indeed.

You have been enrolled into this with good intent. If you want to pass it on please feel free to do so. If you want to unsubscribe please notify us by return and you will be taken off the mailing list. If it's been passed on to you and you want to subscribe on a regular basis (free subscription) please let us know by return and you'll be added to the mailing list.

First 'Pearl': July 2006
