

Press Release

AMPUTEE MOTORCYCLE TRACK & INFORMATION DAY (20TH SEPTEMBER 2004 - DONINGTON PARK)

Following an overwhelming response by our members to a small article in our magazine, **STEP Forward**, the Limbless Association are delighted to announce that their inaugural **Amputee Motorcycle Track and Information Day** will take place on 20th September 2004 at Donington Park.

The invitation is open to everyone, not just amputees.

The circuit's Paddock Suite conference hall will house an 'information day'. This will include exhibit stands from a selection of relevant trade companies; discussion forums - providing guidance and advice from experienced amputees and organizations, plus special guests.

Honda Racing's team riders of **Michael Rutter** and **Karl Harris** will be in attendance, with fellow amputee **Simon Buckmaster**, and the team's race bikes.

Meanwhile on the track, in addition to normal track day activities, Honda have very kindly agreed to supply Honda Pan European bikes for 'Amputee Pillion Laps'. This will allow some of those amputees, who may otherwise be unable to ride, the opportunity to enjoy this unique exhilarating experience. The bikes will be piloted by international road racers, to ensure expert guidance around the Grand Prix circuit.

We have launched a website, dedicated to motorsport for the disabled www.disabledmotorsport.co.uk, which will be updated regularly and contains details about this event, including trade enquiry information.

If you have any questions regarding any aspect of the event further, please contact: Scott Richardson on 020 8788 1777 Ext 21, or scott@limbless-association.org.
